MELBOURNE: 23-24 FEBRUARY 2019

PROFESSIONAL CERTIFICATE OF SKIN CANCER MEDICINE

[LEARN MORE](#)

"This is the first time I have attended a course on skin cancer management, and I found it very useful for GPs learning to approach skin lesions."

– Dr T. Sasikaran, NSW –

The certificate course has been designed for time-poor GPs wishing to diagnose and treat commonly encountered skin lesions in primary care. The Professional Certificate is the foundation course in the three-part pathway leading up to the Professional Diploma of Skin Cancer Medicine.

Offering the ideal starting point for building your core knowledge, this course will teach you the foundations of skin cancer diagnosis with dermoscopy and basic surgical and non-surgical treatments, as well as how to set up your practice, choose the right equipment, and appropriately bill for procedures.

The course is delivered both face-to-face and online. The face-to-face version combines interactive lectures, case discussions and surgical practical sessions on pork parts. The online version offers a flexible learning experience with video lectures and online case discussions.

80 Category 1
QI&CPD points

30 PRPD points
+ Surgery MOPS points

- Skin anatomy and histology
- Skin history and examination
- Dermoscopy: Three Point Checklist
- Common benign skin lesions
- Pigmented skin lesions
- Non-pigmented skin cancers
- Melanoma management
- Dermatopathology
- Topical treatment options
- Punch and shave biopsies
- Elliptical excisions
- Suturing techniques
- Wound care and complications
- Workflow in general practice
- Medicare billing

ADVANCED CERTIFICATE OF SKIN CANCER MEDICINE

[LEARN MORE](#)

"This was an excellent course. It widened my horizon and opened my eyes to lots of tips and tricks in skin cancer medicine. I learnt a lot and feel more confident."

– Dr A. Al-Sebah, NSW –

The certificate course will solidify and advance your knowledge in dermoscopy and surgical and non-surgical skin cancer treatments. The Advanced Certificate is the intermediate course in the three-part pathway leading up to the Professional Diploma of Skin Cancer Medicine which counts towards postgraduate qualifications and clinical attachment programs in Australia and Europe.

The course is delivered face-to-face and provides hands-on training in rarely covered skin cancer management techniques. The program also offers an excellent introduction to more advanced dermoscopy to help you accurately assess the majority of lesions in your practice.

Working on pork parts and torso models, you will plan and practise various procedures under the guidance of experienced skin cancer doctors.

40 Category 1
QI&CPD points

30 PRPD points
+ Surgery MOPS points

- Dermoscopy: Chaos and Clues
- Basal cell carcinoma
- Squamous cell carcinoma
- Melanoma

PROFESSIONAL CERTIFICATE OF SKIN CANCER SURGERY

[LEARN MORE](#)

The highly practical course is ideal for practitioners wishing to learn skin cancer surgery techniques for the management of more complex skin cancer cases. The Professional Certificate is the foundation course in the three-part pathway leading up to the Professional Diploma of Skin Cancer Surgery and is delivered face-to-face in a small group setting with experienced skin cancer doctors and a team of surgical assistants to guide you in your skills practice. You will learn how to perform surgical procedures with optimal scarring results and practise a range of flaps and grafts, large elliptical excisions and suturing techniques on pork parts.

- Surgical anatomy
- Skin lines
- Local anaesthetic blocks
- Large elliptical excisions
- Dog ear repairs
- Rotation flaps
- Advancement flaps
- Full thickness grafts
- Advanced suturing techniques
- Wound care
- Dressing selection
- Medico-legal regulations

EXPERT WORKSHOP OF THE PROFESSIONAL DIPLOMA OF SKIN CANCER SURGERY

[LEARN MORE](#)

The hands-on course is ideal for practitioners wishing to reach a near subspecialised level in surgical skin cancer management. The Professional Diploma of Skin Cancer Surgery is the final course in the three-part Professional Diploma pathway, which counts towards postgraduate qualifications and clinical attachment programs in Australia and Europe.

The workshop component is delivered face-to-face in a small group setting with guidance from experienced skin cancer doctors and a team of surgical assistants. With a comprehensive balance of theory and practical sessions on pork parts, it will allow you to acquire and hone the most advanced skin cancer surgery techniques on anatomically complex and sensitive areas.

- Anatomy of the nose, eyelids, lips, and ears
- Reconstruction of alar and nasal tip defects of the nose and the bilobed flap
- Reconstruction of lower eyelid defects
- Reconstruction of complex lip and ear defects
- Lower limb anatomy and surgical planning
- A review of perforator island flaps for the lower limb: Bezier and Keystone flaps

SKIN CANCER SURGERY MASTERCLASS

[LEARN MORE](#)

Led by renowned skin cancer surgeon Professor Sharad Paul, the intensive Skin Cancer Surgery Masterclass is tailored to GPs who have completed a HealthCert skin cancer surgery course and are experienced in the field. The program is designed to enhance skin cancer surgical knowledge at the highest level, allowing you to independently manage the majority of patients with skin cancer concerns.

The highly practical Masterclass offers an excellent opportunity to complete your knowledge of skin cancer surgery with comprehensive hands-on training in a variety of surgical techniques.

- BEST lines
- Scalp closures
- Golden spiral flaps
- Lower limb closures
- Fascial release flaps on the lower limb
- Review of SMAS and application for cheek closures
- Facial oblique flaps
- Theory and practical tips and tricks

With renowned skin cancer surgeon,
celebrated scientist and global speaker
Professor Sharad Paul
